The following statement relates to my running for the Alpine School Board in the upcoming election.

Education has always been an integral part of my life. From attending school through higher education, to teaching, to administrative work, education has been valued. Therefore, involvement in the Alpine school system as a board member has been and hopefully will continue to be, a natural extension of this philosophy and way of life. The Alpine community totally supports its school. This school has demonstrated excellence from the administrative staff, instructors, and support personnel and, of course, students. As a board member, it is hoped that contributions can be made that will continue the type of educational experience the children of Alpine
