

Marysue Page School Board Candidate, Alpine Elementary School

With 28 years in public education, I am a parent, a grandparent, a former Kindergarten Enrichment Program teacher/director, vocational/tech aide, and a retired high school art teacher. I came into the field of education with a Bachelor of Arts in Education, attending the University of Arizona for two years and graduating from Arizona State University in 1972. In 2006, I completed the Masters of Teaching degree at Grand Canyon University. Over the years, I extended my knowledge in the field of education by completing courses in child development, art, computer technology, and early childhood education. I hold a current State of Arizona Teaching Certificate with a K-12 Art Endorsement and SEI (Structured English Immersion) Endorsement. One of my goals as a school board member will be to ensure the continued success and academic excellence of the students of the Alpine Elementary School, as fostered by its administration, faculty, and staff. A second goal will be to support and encourage the school community to keep current with technology and teaching methodology.
