

I have ties to the Round Valley School District. My grandfather, father and I have all attended school in Round Valley. Now, my husband, who also attended Round Valley schools, and I have three children attending the same schools that gave us an excellent education. This is the main reason I would like to serve as a member of the school board. I have a vested interest in the education of our students.

I believe that Round Valley School District still maintains a strong local control that influences vital decisions affecting our children. We have excellent administrators, teachers and staff who care about our children's education and need a cohesive school board to ensure the best possible education Round Valley School District can offer.

My professional background includes my current employment as a production administrator for a local manufacturing company, a tax preparer and bookkeeper. As a mother and as an employee with considerable responsibility, I have had extensive experience making difficult decisions promptly and effectively. I believe that a school board member must be willing to make hard decisions with high moral standards, strong personal integrity and honest business ethics. I also believe that children deserve a fair, honest, and quality education in a safe environment. If elected as a school board member, I will ensure that our school district will embrace the technologies of today and focus on the technology and skills our children will need in the future so they can succeed.
