

Francis Noble

I have lived in Steamboat Arizona for the past 29 years of my life. I graduated from Ganado High School in 2007.

I have worked with the Ganado School District in past years.

I am running for Ganado School Board to uphold the integrity of the school mission and vision; focus on students exceeding educational expectations. Also to make a difference in our school systems infrastructure. I remember when my father was on the school board they made huge changes back then and it is my mission with the new team to carry on those changes.
