

Governing Board Candidate Statement

I am Caroline Moody-Buckley I am from the White Mountains and have lived in McNary off and on for 48 years. I have worked here on the White Mountains for most of my adult life. My kids were raised in McNary and went to the school there and now my grand kids are at the same school.

I have thought about running for the school board for a while now. The issues that brought me to this have bothered me for some time. The fact that my kids that are now grown but are sending their kids to the McNary School gives me reason to want the best for the school. McNary is currently in "F" status I have reason to believe what I can do to help is to run for the school board. This year at the end of the school year McNary school was unfortunately threatened by a (bomb threat). I was not happy at all with the fact that our new administration had no idea as of what to do. There was no plan in place and no one knew what was happening for far to long. In a real case scenario our children were at risk. It's matters such as this that should be taken very seriously in this day and time procedures must be implemented.

I would like to see parents and guardians informed on all issues of the school as the are happening and not after the fact. Currently the attitude is that parents and guardians don't care. I believe if they are informed of issues and changes in a timely manner they would have reason to care. I care about the school and the community I would just like to see things run in a more professional manner that would benefit the children of McNary School. After all the purpose is to better the lives of our children by giving them the best education they can get especially at the K-8 level of school.
