

Dear citizens of Concho: As a candidate to be a member of the School Board of Concho, it is my belief that the students are the highest priority, and that the purpose of public schools is to ensure that every student receives the highest possible quality of appropriate education. To that end, it is the responsibility of the Board to choose the best possible people to serve as the District Administrator, teachers, aides, and other staff. During the past two years it has been my privilege to serve on the Board, and I believe that we are making great progress to that end, and that it is being reflected in the good progress that our children are making. Having served for more than twenty years as a school teacher, I have some familiarity with the needs of students and teachers, and I would ask you for the privilege of continuing to serve as a member of the Board so that our good progress will continue.
